

PowerBites Application Features Document

Project Name

PowerBites – Homemade Food Ordering Platform

Project Overview

PowerBites is an online platform for ordering homemade food products. Customers can browse products, place orders, make payments, track order status, and earn rewards through the PowerBites Coins program. Administrators can manage products, orders, customers, offers, coupons, banners, and notifications.

Note:

Maximum focus on mobile view

User Roles

Customer

Customers can browse products, place orders, track deliveries, and manage their accounts.

Admin

Administrators can manage products, orders, customers, offers, coupons, banners, and notifications.
