

VAMSHI ELLURU

Frontend Developer

Email: vamshielluru@gmail.com | Mobile: 6302941562 | Chennai, India

SUMMARY

Frontend Developer with 2+ years of professional experience in developing modern web applications using React.js and JavaScript. Possesses hands-on experience in building full-stack applications with the MERN stack, including backend development, database management, and API integration. Strong problem-solving skills with a passion for learning new technologies and delivering high-quality software solutions. Seeking opportunities as a MERN Stack Developer to apply both frontend expertise and full-stack development skills.

PROFESSIONAL EXPERIENCE

FRONTEND DEVELOPER

XYZ Company | [Location]

March 2024 – Present

Working as a Frontend Developer, responsible for developing and maintaining modern web applications using React.js and related technologies.

- Developed responsive web applications using React.js, JavaScript, HTML, and CSS.
- Built reusable components and integrated REST APIs.
- Collaborated with cross-functional teams to deliver high-quality features.
- Improved application performance and user experience.

PROFESSIONAL TRAINING

MERN Stack Development Program

Codegnan IT Solutions

- Completed comprehensive training in MongoDB, Express.js, React.js, and Node.js.
- Developed full-stack web applications implementing authentication, authorization, REST APIs, and database management.
- Gained hands-on experience through real-world projects including Learning Management Systems and Task Management Applications.
- Worked with Git, GitHub, Postman, JWT Authentication, and deployment platforms.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript ES6+, React.js, Material UI

Backend: Node.js, Express.js

Database: MongoDB

Tools: Git, GitHub, Postman, VS Code

Deployment Platforms: Vercel, Render, AWS

PROJECTS

Employee Management System

Technologies: MongoDB, Express.js, React.js, Node.js

GitHub: [\[GitHub Link\]](#)

Live Demo: [\[Deployment Link\]](#)

- Developed a full-stack application for managing employee records, departments, and roles.
- Implemented authentication, authorization, and CRUD operations.
- Designed responsive dashboards for efficient employee management.
- Utilized AI-powered development tools such as ChatGPT and GitHub Copilot to accelerate development, debugging, code optimization, and documentation.
- Add more points related to AI

Employee Management System

Technologies: MongoDB, Express.js, React.js, Node.js

GitHub: [\[GitHub Link\]](#)

Live Demo: [\[Deployment Link\]](#)

- Developed a full-stack application for managing employee records, departments, and roles.
- Implemented authentication, authorization, and CRUD operations.
- Designed responsive dashboards for efficient employee management.

Employee Management System

Technologies: MongoDB, Express.js, React.js, Node.js

GitHub: [\[GitHub Link\]](#)

Live Demo: [\[Deployment Link\]](#)

- Developed a full-stack application for managing employee records, departments, and roles.
- Implemented authentication, authorization, and CRUD operations.
- Designed responsive dashboards for efficient employee management.

Key Achievements

- Improved API performance and reduced response time by 30% through backend optimization.
- Integrated frontend pages with backend APIs using Axios for dynamic data handling.
- Designed scalable backend system to handle large datasets without slowing down or crashing.
- Implemented Redis caching for frequently accessed data reducing API response from 40-60%.

EDUCATION

G. Pullaiah college of Engineering and technology, Kurnool

Bachelor of technology – Electronics and Communication Engineering
